

# SWIVELS

## BRASS IS BEST

The M. Carder swivels are available in sizes to accommodate many fueling requirements. From service stations and truck stops to fuel oil delivery , terminals and off road fueling operations.

All M. Carder single plane swivels are machined from solid aluminum and brass bar stock. This provides the strongest, the **Best and the smoothest surface for the O rings to seal. NO LEAKS. The BRASS male end eliminates galling in aluminum nozzles casting** which is a major problem with aluminum swivels adaptors.

### M Carder Performance Advantages

- Brass male end will not gall in nozzle castings
- Dual O rings seal with all fuels
- Machined Aluminum & Brass bar stock give smooth seal surface NO LEAKS
- Internal nylon retainer cord secures firmly but allows for free rotation

### Swivel Specifications

Inlet: NPT or BSPP  
seals: Viton/Nitrile O rings \*  
Working pressure: 50 PSI max

\*Cold Climate Seals available

### Construction Specifications

Body: Machined from solid brass  
& aluminum bar stock  
Retainer: Nylon cord
